Serving Heroes: Developing Transition and Economic Development (TED) Public-Private Partnerships

Project Title	Serving Heroes: Developing Transition and Economic Development (TED) Public-Private Partnerships
Project Summary	Do you thrive in a challenging, fast-paced work environment? Can you research and search out partnerships and collaborations that are focused on assisting Service members as they transition to civilian life? Are you a wiz at creating data visualizations? If you answered yes to any of those questions
Country	United States

Project Description

TED is VA's primary authority on the military life cycle, transition, and Veteran economic development. We are looking at expanding our community engagement efforts. The primary purpose of this project is to support the development and maintenance of collaborative partnership agreements between and among VBA, private industry, non-profit organizations and other agencies within the federal government pertaining to various aspects of employment and economic policy.

TED will select an interested and qualified intern to join its Washington, DC based administrative and program staff in the delivery of support of community partnerships and economic development initiatives. The project will include conducting research, developing analysis and presenting findings as it pertains to community engagement opportunities that ease Service members transition experiences.

The intern will identify partnership opportunities with organizations from all levels of government, Veteran Service Organizations, nonprofits and private sectors that can collaborate without barriers as they provide transitioning Service members, Veterans, and their families a world-class experience that honors their service. They will plan, schedule, and attend meetings with external stakeholders and executives to collect information and discuss shared interests. In addition, the they will have the opportunity to conduct research on potential partnerships and recommend strategies of engagement. As part of their role they will coordinate with multiple stakeholders, both internal and external, to drafting memoranda of understanding or other partnership agreements.

Internship hours and duration are flexible.
